

# Belarus remembers it! We remember!

May 9 – Victory Day – the holy day of all whites! This day is a holiday of life and gratitude to those who now live for those who have defended our independence and peaceful sky! This is a celebration of hope for our calm and prosperous future! It is with such thoughts and elevated mood today, the delegation of the BGEU, including, as always, FM students side by side with students of other faculties, took part in a solemn rally and laying flowers at the Minsk city! Ended words of gratitude, friendly singing songs of the war years, pride for our grandfathers and great-grandparents, photo for a long

memory! We don't forget!
